Channel Owners

## Does

What behavior have we observed? What can we imagine them doing?

It needs an initial value as it must always return a value upon subscription. Even if it has not received the method.

Behaviour subject is a variant of subject, a type of observable to which one cash "Subscribe" like any other observable.

I know because my agency offers a youtube groweth service. and we have used this formula successfully for dozens of clients.

## **Thinks**

What are their wants, needs, hopes, and dreams? What other thoughts might influence their behavior?

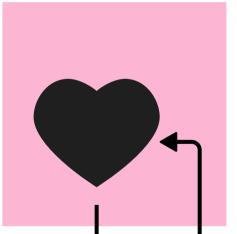

We are often not aware pf the impact our feelings and behaviour have on each other, and because of this relationship, changing our behaviours can have very big effect on our emotions.

We can often tackle depression by changing key behaviours, and for many young people this is the most direct way to help them improve their mood.

Styable government with continued oppertunities to enjoy nature and clean air and water. Stable government with continued oppertunities to execercise freedoms and travel safty.

## **Feels**

What are their fears, frustrations, and anxieties? What other feelings might influence their behavior?

If not property managed, anxiety may make an individual frustrated about their circumstances or the people involed.

They make the mistake of looking at the consumed by starting with the products try find matching need and motivations.

But really they should start with the consumer which necessitaties and understanding of howe emotions drive behaviour.
